

The Rock Round Up!!!

Today was an exciting day in the rock :) We continued our study of the summary of the law by learning about what keeps us from loving God and our neighbor. To make the lesson fun we held class in fellowship hall, with the basketball goal representing our 'goal' of being close to God. The ball represented us, making a basket represented us being close to God.

we tried to make baskets 'blinded' by anger
we tried to make baskets weighted down by a chain of lies
we tried to make baskets with our sight blocked by material desires

Then we tried making baskets without anger, lies, or jealousy with much better results :)
